Uprooted Campaign

Children Uprooted

Fifty million children have migrated across borders or been forcibly displaced. Some are driven from their homes by conflict or disaster; others are migrating in the hope of finding a better, safer life. Far too many encounter deadly danger, detention, deprivation and discrimination.

The Children Uprooted campaign was launched in 2017 and is one of UNICEF's four flagship campaigns in the Cause Framework. The campaign works to uphold refugee and migrant children's rights through three work streams: policy advocacy, fundraising and by influencing public opinion.

At the heart of Children Uprooted is UNICEF's six-point Agenda for Action – every piece of the campaign lifts up and echoes these points for action.

The challenge

UNICEF is looking to partner with purpose-driven companies to help solve one of the most urgent problems facing children and young people around the world.

The challenge: to partner to unlock the talent and potential of some 50 million refugee and migrant children by providing access to accredited learning.

We are looking to identify which companies' business goals can help address this challenge, by leveraging their resources, expertise, influence and innovation. The aim is to move the dial on Sustainable Development Goal 4: to ensure every boy and girl completes free, equitable, and quality primary and secondary education by 2030.

THE GLOBAL GOALS
For Sustainable Development

Sustainable Development Goal (SDG) 4 sets a bold new global target for education that aims to deliver primary and secondary school education to every child by 2030. As a cornerstone of international development, education should always be a top priority.

LAC REGIONAL ADVOCACY AGENDA

EXAMPLES OF WORK IN THIS AREA IN LAC

- Models in Central America and Mexico (non-detention, return and reintegration, root causes, consular protection, psychosocial support) Support to Venezuelan child migrants and families : emergency and development response (Colombia, Ecuador, Brazil, Guyana, Trinidad and Tobago, Peru, etc.).
- Protection protocols in countries throughout region and with a regional approach for a transnational protection
- Care for children of migrant workers Panama-Costa Rica
- Dominican Republic and Haiti: Border protection and integration
- Legal reform and addressing xenophobia (Argentina, Chile)
- DTM with specificity to children throughout region.

CHALLENGES AND OPPORTUNITIES

- Development versus Emergency response
- Partnerships with IOM and UNHCR
- Integration in other sectors beyond Protection
- Data and evidence gaps
- Risk of institutionalization vs alternative care adapted to needs of migrant adolescents
- Cross border collaboration for advocacy and case management
- Politically sensitive issues
- Technical gaps
- Resources
- Operationalizing Global Migration Network and GMC in region and at country level?

Thank you
